

## OSBORNE Extension Dividers

In the extension divider shown, a common pencil can be used in place of the moveable point. The 6" size will scribe a 17" circle, and the 8" size a 23" circle. The tool has a highly polished finish, a single leg, and one moveable point.

No.	Size	Price
104-6	6"	\$65.95
104-8	8"	\$66.95

## GENERAL Trammel Points

These off-center point and trammels are precision made for extreme accuracy. They are used to measure distances greater than the range of ordinary dividers. The 6" steel points may be replaced with pencils, if desired. Clamp openings will take any beam from 3/4" to 1 3/8" thick, any width and length.
