Pipe Caliper

This light-weight nickel plated steel pipe caliper accurately measures all pipe sized from 1/4" to 12" with a one-handed operation. When the caliper makes three-point contact with the pipe to be measured, read iron pipe size from the outside gauge or copper water tubing nominal size from the inside gauge. A handy 6" rule in 1/8" increments is on the fixed leg. At only 3" X 7", it fits conveniently in your shirt pocket.

Gore Layout Rule (by J&J Tool)

Simple step-by-step instructions are included with each rule. This 6" x 6" square also has a protractor for laying out T-patterns. Made of heavy 14 gauge steel, it's laser etched with rust resistant black oxide finish. The layout rule is a must for all insulators and sheet metal workers.
